

# VORMUND

## *User Guide*

### **Team 6**

Seth Cook

Margarita Lee Li

Samuel Marshall

Adam Rice

Mitchell Stendal

John Vall

## Running the program:

1. Download program executables and makefile
3. If you don't have Java installed, do that first
3. Open your command prompt
4. Navigate to the folder with the makefile
5. Type "make runjar". This MUST be done on a Linux or OSX-based machine.  
For Windows, type the command "java -jar Vormund.jar" in the directory it's located in
6. Screen1 will appear confirming the program is running

## Navigating the program:

### Logging in:

Vormund

Username

Password

Login

(Screen 1)

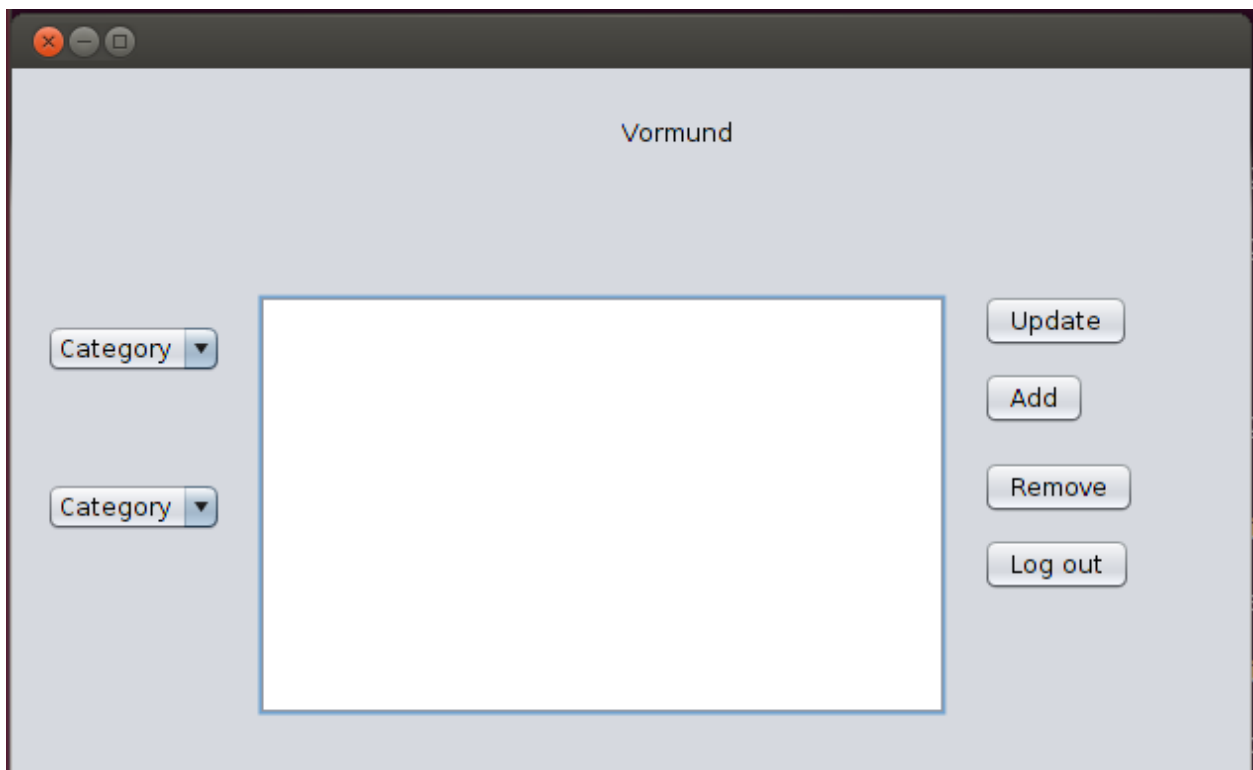

1. If you wish to enter as an existing user just type in your given username and password(will the \* out the password) in the fields and the program will transfer you to Screen 2.
2. If you want to make a new username and password or haven't made one yet type in your password and username and hit Login. A dialog will pop up confirming that you want to create a new user.

*(Dialog shown to confirm new user)*

1. If you wish to not create a new user, hit No. You will be returned to Screen 1 and the fields in Screen 1 will be deleted.
2. If you wish to make a new user, hit yes and the user will be created.
3. You will be transferred back to Screen 1.
4. Log in again with the username and password you created.
5. Screen 1 will now close and open Screen 2.

### **Adding Entries:**

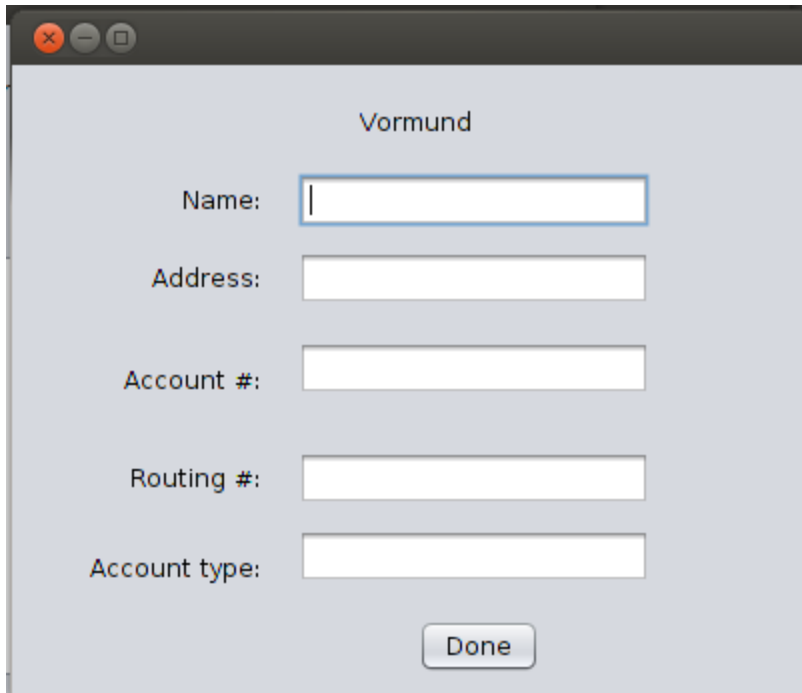

*(Screen 2)*

1. If Log out button is pressed you are returned to Screen 1 without entries in the text fields.
2. To use the add button you need to select an option from the top left drop down menu.

*(Add Windows)*

1. These windows will not let you have blank input.
2. At the completion of your input you can either hit the enter button on your keyboard or the done button to enter the information.
3. When the data is entered it returns the user to Screen 2 in the state that they left it.
3. Every entry must have a title or name.

A screenshot of a software window titled "Vormund". The window has a light gray background and a dark gray title bar with standard window controls (close, minimize, maximize). Inside the window, there are five text input fields arranged vertically. The first field is labeled "Name:" and has a blue border. The second field is labeled "Address:". The third field is labeled "Account #:". The fourth field is labeled "Routing #:". The fifth field is labeled "Account type:". Below the input fields is a button labeled "Done".

*(New Bank Window)*

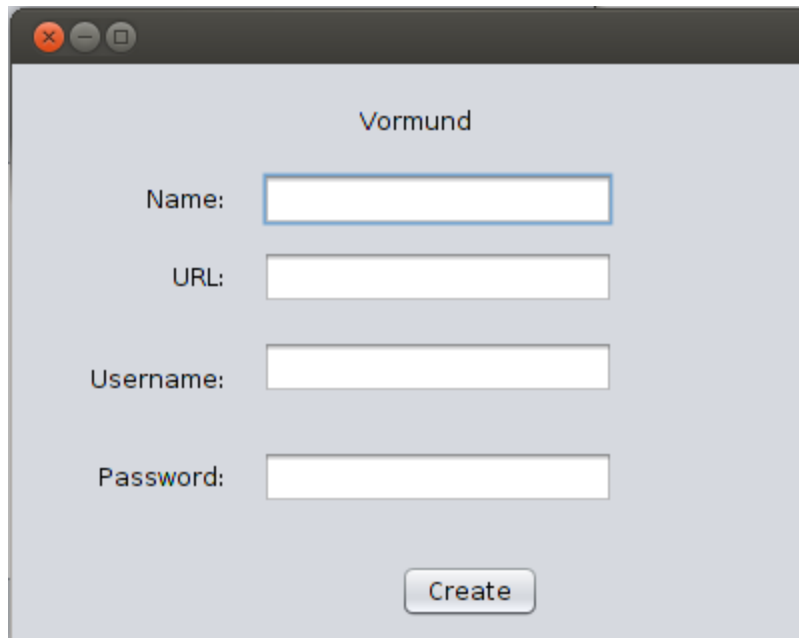

1. This window checks to see if you are using a duplicate account # and displays a message asking the user to change it if it is a duplicate.

A screenshot of a software window titled "Vormund". The window has a standard macOS-style title bar with red, yellow, and green buttons. Inside the window, the text "Vormund" is centered at the top. Below it, on the left, is the label "Title:" followed by a single-line text input field. Underneath the input field is a large, empty rectangular area with a light blue border and a horizontal scrollbar at the bottom. At the bottom center of the window is a rounded rectangular button labeled "Done".

*(New Note Window)*

A screenshot of a software window titled "Vormund". The window has a standard macOS-style title bar with red, yellow, and green buttons. Inside the window, the text "Vormund" is centered at the top. Below it, on the left, are two labels: "Name" and "SSN". To the right of "Name" is a single-line text input field. To the right of "SSN" is another single-line text input field. At the bottom center of the window is a rounded rectangular button labeled "Done".

*(New SSN Window)*

## **Reading Entries:**

Vormund

Category ▼

Category ▼

*(Screen 2)*

1. Select a category from drop down menu 1, then the list of entries that you have added to that category will be populated to drop down menu 2.
2. Open drop down menu 2 and select which instance of the category you wish to view.

*Example:*

*(In this example, the user is looking at the notes category because it is selected in drop down menu 1 and specifically looking at his/her note entitled "Shopping List" because it is selected in drop down list 2)*

## **Deleting Entries:**

1. Open an entry as if you were reading it on Screen 2. Then click the Remove button. Screen 2 will keep what you had selected in drop down menu 1 but go back to the default in drop down menu 2. Nothing will be displayed in the text field.

## **Updating Entries:**

1. Open an entry as if you were reading it on Screen 2. Then click the Update button. The appropriate new entry window will appear but the fields will be populated with the previous information entered.
2. Just edit the information and click done. The field will still be displayed with the updated information.
